

Artisan™ Home Collection Fabrics

Spring 2008

Transparent Fabrics

Filters light with minimal view obstruction while providing a soft look and feel.
A simple collection of white and neutral colours conducive to residential settings.
Compliments rich drapery applications.
Polyester and cotton based plain and textured sheers.

Translucent Fabrics

Provides some privacy while maintaining a continuous ambient light throughout the fabric.
From soft to vibrant, a great collaboration of solid colours.
Compliments and co-ordinates with a large selection of trims.
Made from 100% polyester based materials.

Opaque Fabrics

White backing creates a uniform look from the exterior.
Provides total privacy and room darkening.
Some fabrics co-ordinate well with other fabrics for a complete look.
Wide selection of colour ways, composed mainly of polyester and cotton.
Compliments and co-ordinates with a large selection of trims.
Can be used in applications such as bathrooms, bedrooms, or where privacy is required.

Texture Fabrics

These fabrics are mainly composed of flax and cotton with some polyester. They have the look of cottons, linens, raffia, but are more durable.
Great for environments that require a natural feel.
Have a good neutral base of colour with some unique accents.
Provide a varying degree of light penetration.
Some fabrics can be used as privacy screens.

Print Fabrics

A wide range of contemporary prints composed of polyester and cotton.
Great for creating a focal point in a room or can be co-ordinated with plain colours.
Make a spectacular statement in a common area or where functional room dividers are required.
Provide a varying degree of light penetration.
Some fabrics can be used as privacy screens.
